

# 5th Ontario Society of Adlerian Psychology Annual Conference

## Call for Conference Proposals

### **The Power of Diversity: Harnessing and Celebrating Unity**

**Holland Bloorview Kids Rehabilitation Hospital, Toronto, Ontario  
October 16-18, 2015**

The 2015 Ontario Society of Adlerian Psychology Annual Conference will bring together psychotherapists, marriage and family therapists, psychologists, parent educators, parents, families, couples, counsellors, social workers, child and youth workers, teachers, students and child care providers, who share an interest in Adlerian psychology's theory and practice. Adlerian psychology envisions understanding individuals within their social context and promotes encouragement, respect, social interest, equality, being valued, holism and a sense of belonging.

It is a pleasure to invite submission for presentation proposals to the 5th ONSAP annual conference. Acceptable proposals may address theory, practice, education and training. All submitted proposals will be reviewed with the intent on creating a balance of topics. Proposals will be rated on how they relate to the conference theme and integrates Adlerian theory and principles.

**Presentation Sessions:** A 75-minute focused session where presenters will typically offer attendees with practical experience to help them increase their knowledge, skills, attitude and understanding in a particular area that is of current interest.

A successful proposal will address aspects of the theme for the 2015 conference, ***The Power of Diversity: Harnessing and Celebrating Unity***, or its primary objectives:

- **Expand your knowledge, skills and attitudes** in applying Adlerian theory to developing personal and professional awareness when working with diverse clients
- **Understand** the strength of diversity in families
- **Create belongingness and foster** community feeling in a diverse society
- **Promote the knowledge, training, and teaching** of Alfred Adler's Individual Psychology and honour his historical legacy and encourage Adlerian principles in daily living
- **Walk away with** practical Adlerian psychology tools, skills and strategies
- **Create a supportive atmosphere with interpersonal connection** for informal mentoring and networking opportunity
- **Meet the continuing education needs** of psychotherapists, counsellors, social workers, psychologists, marriage and family therapists, child and youth workers, educators, and child care workers
